

**C7: Adding the invalid number of product to the cart field**

Type	Priority	Estimate	References
Functional	Medium	180	None
<b>Automation Type</b>			
None			

## Steps

1	Go to exdrive.com.	The site should open and the user can see the main page of the site
2	Click on the header 'Мопеди' on the top of the page	The products from the category 'Мопеди' should open
3	Add the product to the cart	The user should see the message 'the product added to the cart'
4	Click on Review the cart	The shopping cart should opened and user can order the product
5	Enter '-' in the number input field	The user should see a message "Please type a number" and can't continue to order the product
